

## Application form 3

This form is used to apply to pursue the profession of accredited structural engineer on a temporary or occasional basis in accordance with the provisions of BR 08 Appendix 3, section 3 A.

Notification to the Accreditation Committee should be renewed once a year if the applicant intends to maintain the possibility of providing a service as an accredited structural engineer on a temporary or occasional basis in Denmark during the year in question.

Applications should be submitted to: Danish Society of Engineers (IDA)

Kalvebod Brygge 31-33

DK-1780 Copenhagen V

Denmark

F.A.O.: Accreditation Scheme for Structural Engineers

Year and specialism: \_\_\_\_\_

Company: \_\_\_\_\_

Business address: \_\_\_\_\_

Postcode/Town or city: \_\_\_\_\_

Country: \_\_\_\_\_

Business tel.: \_\_\_\_\_

The materials mentioned below must be enclosed for use in case processing by the Accreditation Committee. See also the guidance above:

I, the undersigned, am applying for:

### Accreditation

- information on insurance agreements or other forms of personal or collective protection associated with professional liability;
- documentation verifying the service provider's nationality;
- attestation that the service provider is lawfully established in a Member State to pursue the profession of accredited structural engineer there, and that at the time the attestation was issued the person concerned was not prohibited from pursuing this profession, even temporarily;
- evidence of professional qualifications;
- evidence of any kind that the service provider has pursued the profession in question for at least two years during the previous 10 years, if the profession or training for the

profession is not regulated in the home country of the person concerned.

### Renewal

- Information on which cases the applicant has submitted to the building authorities within a period of at least three years, cf. section 3 A
- A signed declaration, cf. section 3 A 4.

I, the undersigned, am familiar with the IDA's rules relating to the Accreditation Scheme for Structural Engineers for load-bearing structures within residential, institutional and industrial construction, and hereby declare that I shall abide by these rules.
